

We're Going Green

In an effort to reduce our carbon footprint on the environment, we will be putting the information from our *Pension News* newsletter on the Plan's website and will no longer produce a printed newsletter. By integrating this information into our website, we are hoping to pave the way for future member communications that are more timely, engaging, and audience-focused, such as subscription-based e-mail newsletters. For the time being, you can find specific information that we normally include in the *Pension News* as described below:

Looking for the Market Commentary and the Fund Performance and Composition?

This information is available in the Investment section of the Plan's website.

Where can I find up-to-date Workshop information?

Please check the Workshops page on the Plan's website regularly as we offer workshops throughout the year for new members and members who are approaching retirement.

Where can I find articles and fact sheets that are relevant to me?

Stay tuned as we will be making improvements to the Library section of the Plan's website to make it easier for you to find articles and education that are important to you.
